Table 7. Employment status of veterans 18 years and over by presence of service-connected disability, reported disability rating, period of service, and sex, August 2017, not seasonally adjusted

Table 7. Employment status of veterans 18 years and over by presence of service-connected disability, reported disability rating, period of service, and sex, August 2017, not seasonally adjusted

[Numbers in thousands]

Presence of disability, reported disability rating, period of service, and sex	Civilian noninstitutional population	Total	Civilian labor force		Total	Percent of labor force	Not in labor force	
			Percent of population	Employed				Unemployed
TOTAL VETERANS								
Total	20,562	10,065	49.0	9,618	46.8	448	4.4	10,497
With service-connected disability	4,939	2,390	48.4	2,287	46.3	103	4.3	2,549
Less than 30 percent disability rating	1,401	749	53.5	725	51.7	24	3.3	652
30 to 50 percent disability rating	1,066	664	62.3	642	60.3	22	3.3	402

NOTE: Veterans are men and women who served on active duty in the U.S. Armed Forces and were not on active duty at the time of the survey. Veterans could have served anywhere in the world during these periods of service: Gulf War era II (September 2001-present), Gulf War era I (August 1990-August 2001), Vietnam era (August 1964-April 1975), Korean War (July 1950-January 1955), World War II (December 1941-December 1946), and other service periods (all other time periods). Veterans are counted in only one period of service, their most recent wartime period. Veterans who served in more than one wartime period are classified in the most recent one. Veterans who served in both a wartime period and any other service period are classified in the wartime period. A service-connected disability is a health condition or impairment caused or made worse by military service. The associated disability rating, which can range from 0 to 100 percent, is determined from a rating schedule published in the U.S. Code of Federal Regulations, "Title 38." More information appears in the Technical Note of this release. Dash indicates no data or data that do not meet publication criteria (values not shown where base is less than 75,000).

30 to 50 percent disability rating	114	70	61.6	70	61.6	-	-	44

NOTE: Veterans are men and women who served on active duty in the U.S. Armed Forces and were not on active duty at the time of the survey. Veterans could have served anywhere in the world during these periods of service: Gulf War era II (September 2001-present), Gulf War era I (August 1990-August 2001), Vietnam era (August 1964-April 1975), Korean War (July 1950-January 1955), World War II (December 1941-December 1946), and other service periods (all other time periods). Veterans are counted in only one period of service, their most recent wartime period. Veterans who served in more than one wartime period are classified in the most recent one. Veterans who served in both a wartime period and any other service period are classified in the wartime period. A service-connected disability is a health condition or impairment caused or made worse by military service. The associated disability rating, which can range from 0 to 100 percent, is determined from a rating schedule published in the U.S. Code of Federal Regulations, "Title 38." More information appears in the Technical Note of this release. Dash indicates no data or data that do not meet publication criteria (values not shown where base is less than 75,000).

Presence of disability, reported disability rating, period of service, and sex	Civilian noninstitutional population	Total	Percent of population	Civilian labor force		Total	Percent of labor force	Not in labor force
				Employed Total	Unemployed Total			
60 percent or higher disability rating	224	86	38.2	85	37.9	1	0.9	138
Disability rating not reported	51	31	-	31	-	-	-	20
Without service-connected disability	1,386	891	64.3	832	60.1	59	6.6	494
Presence of disability not reported	97	49	50.4	41	42.0	8	-	48
Gulf War era, total								
Total	1,236	902	73.0	839	67.8	64	7.0	334
With service-connected disability	444	285	64.3	274	61.8	11	3.9	159
Without service-connected disability	714	574	80.4	530	74.2	44	7.7	140
Presence of disability not reported	78	43	54.8	34	44.3	8	-	35
Gulf War era II								
Total	746	536	71.9	491	65.8	46	8.5	209
